

Java Developer (m/f)

SYMPTOMA GmbH is looking for dedicated software developers (Java, web development) in Salzburg and Attersee.

[SYMPTOMA](#) is an innovative startup currently developing a search engine for diseases. As a physician, you can enter symptoms and you will receive a list of matching [differential diagnoses](#), weighted by their probability for your case. Our goal is to improve diagnostic quality and to avoid fatal misdiagnosis. Your work can help physicians to save lives.

Your responsibilities

- Further development of the medical search engine SYMPTOMA
- Development of software for semantic processing of data

Your profile

- Successfully completed studies **computer science/IT** or similar **practical experience**
- Experience and profound knowledge of **Java web development**, knowledge of **Spring framework** is an advantage
- Structured, independent, responsible and precise work together with the development team

Your chances

- You work with a professional, dynamic team with innovative ideas.
- Your ideas and suggestions are highly valued and evaluated in quick decision-making.
- Your knowledge and responsibilities grow with the company.
- Employment: **fulltime**, the monthly compensation (KV) is 2.187 - 3.854 EUR gross at 38,5 hours per week and 14 salaries per year. Overpayment according to your qualifications and experience is provided.

Interested?

Please send your application only via e-mail (incl. CV, cover letter, ideally with references and work samples) stating your earliest possible starting date and your salary expectations to: jobs@symptoma.com
